

May 1, 2009

Dear Members,

I received a legislative notice from a group called Texas Legal Process. It contains views on legislative goals that differ from your associations. Normally I would not acknowledge other's efforts as I believe we are clear on our objectives and have provided current notices and alerts of those. However, in reviewing the content of their notice, I couldn't help but ask – who are these people?

An email was sent to the address provided for response which was returned undeliverable. A mailing address and phone number for correspondence was not provided. A person's name for contact was not provided. Having said all this, to my knowledge, this association has not been asked by this "group" about our legislative goals to assist in their reporting of these matters.

Your Board is made up of hard working individuals, willing to set aside the matters of their own businesses, who remain dedicated to elevating the standards of this industry. We are transparent in our views, provide contact information and encourage you to use it. We provide a great educational program and offer fellowship, all to help professionalize this industry.

As always, we stand committed to the belief that staying with the existing program of the PSRB of the Supreme Court of the State of Texas is the best place to be. Our decisions are based on this belief. Please contact me or any of your Board members for any questions.

Eric Johnson
President
