

## Legislative Update

We have been busy working this session and want to get everyone current as possible. SB1388, our funding bill, was passed unanimously out of the Jurisprudence Committee of the Senate. This is a big step in getting this bill through and we owe many thanks to those that helped. We were able to see first hand how effective the calls being made by you are and we are very proud of our members' support. This still needs to pass the Senate and then get through the House so more work is required and we will provide updates and notices later.

I know you have been receiving notices with conflicting or confusing information. TPSA remains committed to our goals and want to make it clear that we were not in support of SB1276 in its original form, however with continued dialog with the constables, substitute language to totally rewrite the bill was being worked which would have contained many legislative goals of our own. This was not accomplished before the hearing, so as promised the constables requested the bill not to be heard. We appreciate their support and them standing by their word.

We encourage you to be active. We want your input. Please contact me or any other board member should you have any questions

Thanks,

Eric Johnson  
President, TPSA
